NEWS RELEASE

Date: March 21, 2007

**Farm Bureau and St. Luke's Magic Valley
Welcome the First Baby of Spring**

St. Luke's Magic Valley Regional Medical Center and Twin Falls County Farm Bureau are pleased to welcome the hospital's first baby of Spring – a sweet little 7-pound girl named Audrey – the daughter of Ryan and Sarah Sattelberg of Twin Falls. Although she arrived a few days ahead of schedule – at 12:46 a.m. on March 21 – her family could not be more pleased with the timing. Baby Sattelberg's father is in the military, deployed in Iraq but currently home on leave. Her mother simply explained, "She was just waiting for her Daddy to come home!"

Twin Falls County Farm Bureau presented the Sattelberg's with an enormous wicker basket filled with gifts. Judy Woody, Twin Falls County Farm Bureau Women's Committee Chairperson stated, "For National Agriculture Day we have traditionally helped to celebrate the first baby of spring. It was especially nice to meet this family and present them with the gift basket and quilt!" Becky Noblin, Manager of the Women and Infant's Center at St. Luke's Magic Valley added, "I think this family has a wonderful story to talk about with their little girl – one that I'm sure will be shared throughout her lifetime."

Congratulations to the Sattelberg family!

St. Luke's Magic Valley Regional Medical Center opened its doors in 1908. Today, this 213-bed community hospital serves the health care needs of people from eight southern Idaho counties and parts of northern Nevada. St. Luke's Magic Valley Regional Medical Center provides inpatient and outpatient surgery, 24-hour emergency services, cancer treatment, imaging, the Canyon View Psychiatric and Addiction Services, and women's and children's health care.
