### **University of Washington School of Medicine** Idaho WWAMI Mini-Medical School offered at CSI

Twin Falls, ID (December 20, 2007) – The 6th The Idaho WWAMI Mini-Medical School opens for the general public in January and February 2008. The two-hour evening program will be held Thursdays, January 10 – February 7, 7-9 p.m., at the College of Southern Idaho: Shields 209. This program is a free community service, for the public, thanks to Tobacco Millennium funds; and brought to you by St. Luke's Magic Valley and the College of Southern Idaho.

The series is designed to bring understanding of medical issues associated with the endocrine system and is presented at a level suitable for the general public. Individuals interested in pursuing a health care career are also welcome. Topics include anatomy and physiology of the endocrine system, Diabetes I and II, thyroid disease, and hormone replacement therapy. A physician faculty from Idaho's graduate medical education training programs will moderate each session.

- Jan 10, 2008           Endocrine System Physiology
- Jan 17, 2008           Metabolic Syndrome and Obesity
- Jan 24, 2008           Diabetes: Type 1 and Type 2
- Jan 31, 2008           Osteoporosis
- Feb 7, 2008            Thyroid Disorders

Preregistration is required. Call 737-2007 or email: [robynj@mvrmc.org](mailto:robynj@mvrmc.org) There are no charges for the sessions.
